

Start of Block: Section 2 – Family questionnaire

Imagine that you are **the close relative of a deceased donor**. This means that your close relative is eligible to donate their organs, that will be used to help others through transplantation after their death. You will now be presented several aspects related to organ donation, and asked how much you trust different agents involved in the process. Use the slider to respond how much you trust or distrust each agent to commit to a specific task.
